Ex. 6 [REDACTED]. Looking forward to getting moving on these ponds.

Thanks

Kelly

Hi Susan and Kelly, I will probably get it sent out tomorrow. Let me know if you have any questions. I am glad you were both able to hear about the letter this morning.

Fyi, I will be looking to schedule a couple meetings for me to visit Pocatello in the next few months, that would be focused on the Post Closure Plan. I will need to deal with the difficult challenge of getting schedules to line up for a possible date between my contractor, Brian English, myself, the two of you, and FMC representatives. So if you have large chunks of time that would not work well for you let me know and I will factor that in.

I am planning to have a framework meeting to kick off more focused energy on the work that needs to be done for the plan. I will summarize a project charter that will provide the framework for the project to complete the Post Closure Plan. For the second meeting I plan to conduct a facilitated Data Qualities Objectives meeting. This would help establish the type, quantity, and quality of data needed to reach defensible decisions or make credible estimates. See this link for more info about DQO:

Good to know it hasn't gone out. I did not recall seeing anything.
